11.2 Except on procedural matters, voting shall be by standing vote, but if seven or more members shall doubt the vote by raising their hands to so indicate after the vote is announced, then a call of the roll shall be taken and the votes recorded in the journal. The Moderator may, in his discretion, direct that any vote be taken by a call of the roll. A majority of all of the members shall constitute a quorum, but a smaller number may adjourn from time to time and may compel the attendance of absent members in the manner and subject to the penalties prescribed by the rules of the Town Meeting. The Town Meeting shall not for any reason declare itself in executive session or attempt to prohibit the public from attendance at any of its proceedings.

11.3 Roberts Rules of Order, Revised, with the following exceptions, shall be the authority in all procedural matters not covered by law.

11.4 A motion to reconsider a vote on a warrant article may be made by any Town Meeting member, provided that written notice of intent to move such reconsideration is received by the Town Clerk within fourteen (14) days after that vote was recorded and before all other articles on that warrant have been acted upon.

11.4.1 Any vote which takes effect under Sec. 13.0 of this article, without a fourteen (14) day delay, shall not be reconsidered.

11.4.2 Motions to reconsider shall be in order only after all other business of the warrant has been completed and shall require a two-thirds majority of those members present and voting.

11.4.3 At each adjourned session the Moderator shall advise the Town Meeting of all articles for which notice of intent to reconsider has been filed.

11.4.4 No vote shall become effective while reconsideration is pending.

11.5 No person who has spoken on the question may move to terminate debate.

11.6 A session of The Town Meeting shall not be adjourned until all articles and motions to reconsider have been acted upon.

The Moderator shall have the authority to direct that a proposed action to be taken shall be done in the nature of a Bylaw rather than in some other form when in his discretion it seems advisable to do so.

Every proposed Bylaw shall be introduced in writing and in the form required for final adoption. No proposed Bylaw shall contain more than one subject, which shall be clearly expressed in its title.

The Town Meeting may adopt any standard code of technical regulations, in whole or in part, by reference thereto in an adopting Bylaw, provided, however, that one or more copies of the proposed code shall be available in the office of the Town Clerk, and the adopting Bylaw shall not be construed as to include changes or revisions made by the drafters of said code subsequent to the Town Meeting vote to adopt the code.

No final vote of any representative town meeting session passing or rejecting a measure under any article in the warrant, except a vote to adjourn, or an authorization to borrow money in anticipation of taxes, an authorization to pay debts and obligations of the town, an appropriation of funds necessary to implement a written agreement executed under section one hundred and seventy-eight I of chapter one hundred and forty-nine of the General Laws, or the budget of the Town as a whole, or a vote declared by preamble to be an emergency measure necessary for the immediate preservation of the peace, health, safety or convenience of the town, and which is passed by a two-thirds vote of the membership, shall be operative until fourteen days after the adoption of such vote.

If, within said fourteen days, a petition signed by not less than five per cent of the registered voters of the town, containing their names and addresses as they appear on the list of registered voters at the most recent election, is filed in the office of the selectmen requesting that the question or questions involved in any such vote be submitted to the registered voters of the town at large, then the operation of such vote shall be further suspended pending its determination as hereinafter provided. The board of registrars shall certify the signatures within seven days of the filing date. The selectmen shall forthwith after the board of registrars certifies that the petition has the requisite number of signatures call a special election which shall be held within 100 days but no sooner than the earliest date on which the question may appear on the ballot pursuant to section 42C of Chapter 54 of the general laws, as it may be amended from time to time; provided, however, that if a regular or special town election is to be held within the 100 day period, they may provide that the question or questions involved be presented to the voters at the same election.

All votes shall be taken by official ballots, and the check list shall be used in the same manner as is in the election of Town Officers. The questions so submitted shall be determined by a majority vote of the registered voters of the Town voting thereon, but no action of the Representative Town Meeting shall be reversed unless at least twenty per cent of the total registered voters of the Town shall so vote to reverse the vote of the representative town meeting..

The question so submitted shall be stated on the ballot in substantially the same language and form in which they were stated when presented by the Moderator to the Representative Town Meeting as appears from the records of said meeting, provided, however, that if the question as stated by the moderator was lengthy as determined by the board of selectmen in its sole discretion the question may instead be stated in summary form by referring to the action taken by the representative town meeting.

This election shall be held on a Saturday, unless it is to be held in conjunction with another election and the polls shall open not later than two o'clock in the afternoon and shall be closed not earlier than eight o'clock in the evening.

If such board or officer determines that indemnification is appropriate, such board or officer shall certify for payment, either directly or by way of reimbursement, by such city, town or district, in the same manner as a bill lawfully incurred by such board or officer but out of an appropriation for the purposes of clause (32) of Section 5 of Chapter 40, such of said expenses as may be specified in such certificate. At any time within two years after the filing of an application as aforesaid, an

applicant aggrieved by any denial of his application or by the failure of such board or officer to act thereon within six months from the filing thereof may petition the superior court in equity to determine whether such board or officer has without good cause failed to act on such an application or, in denying the application, in whole or in part, has committed error of law or has been arbitrary or capricious or has abused its or his discretion, or otherwise has acted not in accordance with law. After due notice and hearing, such court may order such board or officer to act on such application or to consider, or further consider, and determine the same in conformity with law.

No city or town or any fire or water district shall indemnify under this paragraph if insurance providing indemnity for, or protection to, such fire fighter or police officer was in effect under authority of clause (1) of Section 5 of Chapter 40 at the time when the expenses or damages for which indemnification is sought were sustained, unless and until all rights under such insurance in favor of such city, town or fire or water district shall have been exercised, determined and satisfied.

For the purposes of this section, call firemen and volunteer firemen shall be considered fire fighters. This section shall be construed to require a city, town or district to indemnify, in the manner and to the extent herein provided, any fire fighter or police officer who is assigned to special duty by a superior officer for expenses or damages sustained by such fire fighter or police officer in the performance of such duty, whether or not he is paid for such special duty by the city, town or district, or otherwise. In any town which by Bylaw shall so provide, the powers vested and duties imposed by this section upon the board or officer authorized to appoint fire fighters in such town shall be exercised and performed by a majority of the members of a panel consisting of (a) such officer or chairman of such board, (b) the town counsel or other officer having similar duties, or a person designated in writing by such counsel or officer to act for him, and (c) such physician as the Board of Selectmen shall in writing appoint.

1.27 The Board of Selectmen may, upon petition, license such persons as they deem suitable to be dealers in junk, precious and/or old metals or secondhand articles and keepers of shops for the purchase, sale or barter of such articles, pursuant to law within the town. Such licenses shall not be valid to protect the holders thereof in a building or place other than that designated in the license, unless consent to removal is granted by the Board of Selectmen, nor shall any license authorize the licensee to bring or allow to remain upon the licensed premises any rags, old paper, or other refuse material gathered or recovered from any source. All licenses thus granted shall contain a clause that the person thus licensed agrees to abide by and be subject to all the provisions of any Bylaw which may be adopted by the Town of Burlington relating to dealers in or keepers of shops licensed for the above purposes. Such licenses shall be granted only upon payment of an annual fee, the amount of which shall be designated by vote of the Board of Selectmen.

No such shopkeeper shall have his shop open for the transaction of business, nor shall he purchase any junk, precious and/or old metals or secondhand articles, except during licensed business hours as determined by the Board of Selectmen.

Applications for the reissue of licenses already existing shall be filed at least thirty days before the expiration of such license. All licenses issued under this Section shall expire annually on the first day of May except that licenses may be issued in April to be valid for twelve months beginning the next succeeding first day of May.

When a licensee has failed to use his license for a period of thirty days in the business and at the place for which he was licensed, the Chief of Police through his designee will so report to the Board of Selectmen with such reasons for the failure as the licensee may give.

As used in Article XIII Sections 1.27 through 1.28.3, the following definitions apply: Precious metals shall mean any object constructed of or electroplated with Gold, Silver or Platinum, regardless of its form, weight or appearance. The word junk shall refer to "old or scrap copper, brass, rope, rags, batteries, paper, trash, rubber debris, waste, or junked, dismantled, or wrecked automobiles, or parts thereof, iron, steel, and other old or scrap ferrous or nonferrous material" as defined by Chapter 140B, Section 1 of the Massachusetts General Laws, as amended.

1.28 Every such shopkeeper, licensed in accordance with Article XIII, Section 1.27, shall keep a book in which shall be written, at the time of every purchase of any such article, a particular description thereof and the name, date of birth, and residence of the person from whom such purchase was made and the day and hour of such purchase. Such book shall be of a size and style to be approved by the Burlington Chief of Police and shall be legibly written in the English language, and shall show the amount paid for each article and the number attached to each article in accordance with the above requirements. No entry in such book shall be erased, obliterated or defaced. The shop of such shopkeeper, and all articles of merchandise therein, and such book shall at all times during business hours be open to inspection of the Burlington Chief of Police, his designees or any persons authorized by the Board of Selectmen.

Every such shopkeeper shall require a person from whom he makes a purchase to provide positive identification (positive identification shall mean any picture identification card issued by a governmental agency) and to sign his name, date of birth and address on a card, the style and size of which shall be approved by the Burlington Chief of Police. In those transactions where precious metals and/or gems, regardless of form, weight or appearance, are purchased, said record of positive identification together with each transaction sheet shall be photocopied. In the event that such person is unable to write, the shopkeeper shall fill in the name, date of birth and address obtained from the positive identification required above on such card, together with a notation stating that such person was unable to do so.

Such card shall be retained permanently in an alphabetical index file by last name by the licensed dealer/shopkeeper. Every such shopkeeper shall, at the time of making any purchases, attach a number to each article bought, traded or bartered and shall make entry of such number in the book described above.

If the articles obtained by the licensee through purchase, trade or barter are of precious metals or gems, the shopkeeper shall also list in said book as described above and on said card as described above, the weight and current market value of each article obtained.

Any police officer of the Town of Burlington, as a designee of the Burlington Chief of Police Burlington, may, during business hours, enter upon any premises used by a licensed junk, precious and/or old metals or secondhand articles dealer/shopkeeper to ascertain how he conducts his business, and examine any and all articles taken in trade or kept or stored in or upon said premises and all books and inventories relating thereto, and all such articles, books and inventories shall be exhibited to any such officer whenever a demand shall be made for such exhibition. Refusal to permit said viewing shall constitute a violation of this Bylaw. The officers actions shall at all times conform to the established Policy and Procedures of the Burlington Police Department pertaining to inspection of licensed premises.

Every such shopkeeper (except those business enterprises which deal exclusively in junk as defined under Chapter 140B, Section 1 of the Massachusetts General Laws, as amended) shall make out and deliver to the commanding

officer of the Bureau of Criminal Investigation, Burlington Police Department, every business day before the hour of 10 o'clock A.M. a legible and correct list containing an accurate and detailed description of all articles purchased during the preceding business day, the respective numbers of such articles as required above, the prices paid therefor, and the time when such articles were purchased, and with regards to the purchase of items containing precious metal, and/or gems, either the original photocopy or a copy thereof which shows the positive identification legibly, the items purchased and the transaction sheet, as described above. The above exemption of junk dealers/shopkeepers shall not relieve the need for such dealers/shopkeepers to comply with the requirements of Chapter 140, Section 60 through 69, of the Massachusetts General Laws.

The Bureau of Criminal Investigation will review each police report received listing lost/stolen property and also ensure that a report is received from all junk, precious and/or old metals and secondhand articles shopkeepers/dealers for the purpose of identifying any article that is like or similar to one which has been reported lost or stolen. Should this situation occur, a "stop order" shall be issued by the Chief of Police or his designee, to the shopkeeper/dealer prohibiting the resale of the particular article(s) until it can be determined whether the particular piece(s) is in fact that which has been reported lost/stolen. If it is determined that the particular article is not reported lost/stolen, the "stop order" shall be lifted forthwith.

Every such shopkeeper shall post in a conspicuous place in his shop a copy, to be furnished by the Police Department, of the statutes, Bylaws and Town of Burlington regulations relating to dealers in junk, precious and/or old metals and secondhand articles, and shall put in some suitable and conspicuous place in his shop a sign having his name and occupation legibly inscribed thereon in large letters.

No such shopkeeper shall place or maintain any signs or devices upon or in connection with his licensed premises indicating or tending to indicate that any form of business is conducted therein which he is not legally authorized to pursue.

No such shopkeeper shall permit to be displayed any secondhand furniture or household effects in any open area surrounding or appurtenant to the premises occupied by said license.

1.28.1 No person licensed under this article shall, directly or indirectly, either purchase or receive by way of barter or exchange any junk, precious and/or old metals, gems or secondhand articles from a minor, knowing or having reasonable cause to believe him to be such.

No such shopkeeper holding a license as a dealer in precious and/or old metals, gems, and/or secondhand articles shall permit to be sold any article purchased or received by him until at least a period of thirty days from the date of its purchase or receipt has elapsed. Nor shall any dealer in, or keeper of a shop for the purchase, sale or barter of junk permit to be sold, any article purchased or received by him until at least one week from the date of its purchase or receipt has elapsed.

1.28.2 All persons who buy, sell or barter secondhand books, prints, coins or postage stamps shall be deemed exempt from the provisions of Section 1.27, 1.28, and 1.28.1 of this Bylaw, except the license and fee requirement, under Sections 1.27, relating to the licensing of dealers of secondhand articles.

1.28.3 All the provisions of this article shall be incorporated into each license which shall be granted under it, and the Burlington Board of Selectmen shall have the power at all times and at its pleasure, to revoke any license granted under this Bylaw. Any person who acts as a dealer in or keeper of a shop for the purchase, sale or barter of junk, precious and/or old metals or secondhand articles without a license, or in any other place or manner than that designated in his license or after notice to him that his license has been revoked, or violates any such rule, regulation or restriction of this Bylaw, shall forfeit two hundred dollars for each such violation and will be subject to prosecution.

The purpose of the bylaw is to ensure the availability of water from privately owned fire hydrants for fire suppression or other emergency uses within private residential and commercial developments. The Town of Burlington Department of Public Works ("DPW") Superintendent and the Fire Chief shall promulgate such regulations as may be necessary to implement this bylaw.

5.2 Definitions

Hydrant: The above ground appliance (as defined by the NFPA) used to provide a water supply to fire apparatus in the event of a fire or other emergency.

Hydrant owner: The person or entity (or their designee) according to Town records, that is responsible for tax payments (or other payments to the Town) for the property on which the hydrant is installed.

Hydrant maintenance: The process of regular maintenance of a fire hydrant to determine its capability to provide the desired water supply for which it was designed; and to exercise all valves, caps, etc.; and to lubricate and paint as needed.

5.3 Responsibilities of Private Hydrant Owners

5.3.1 The owner of a Private Hydrant System or Hydrant (collectively, “hydrant”) located on non-Town owned property shall maintain such hydrant by a qualified water supply contractor chosen from a list provided by the DPW or contract with the DPW upon such fees as the DPW may establish to conduct the maintenance annually between April 1 and June 30. The DPW shall, by regulation, issue a list of maintenance procedures for bylaw compliance. The results of such maintenance shall be forwarded to the Burlington Water and Sewer Division (“W&S”) of the DPW. W & S shall be notified, in writing, at least 24 hours prior to the conduct of such annual maintenance.

5.3.2 The purpose of maintenance is to determine the hydrant’s capability to furnish the volume of water available from the Town’s water supply to that hydrant to be used in the event of fire. Such maintenance may be in addition to any maintenance or tests, including water flow tests, that may be required by the owner’s insurer or other entities.

5.3.3 If any hydrant does not successfully pass the maintenance procedures required by this bylaw and any regulations promulgated hereunder, the hydrant owner must immediately in writing notify the Burlington Fire Department (“BFD”) and W&S of such failure. The hydrant owner shall furnish W & S with a written plan for repair of any hydrant marked OOS; including the reason the hydrant is OOS and a timetable for needed repairs to be made. All repairs and/or replacements shall be made within a 30 day period of such notification unless W & S extends that period due to cold weather considerations or for other good cause. Upon completion of repairs, the hydrant owner shall notify the W&S and BFD in writing of such repair. The BFD shall then inspect the hydrant and if the repairs are completed, shall remove the OOS marking.

5.3.4 All hydrants shall have marking systems attached (flag-style similar to those used on Town maintained hydrants) in order to identify the hydrant at night and in the event of snow blowing or otherwise covering the hydrant. Such marking system shall not interfere with the expedient use of the hydrant during an emergency. In no case shall snow be piled against or otherwise be allowed to accumulate on any hydrant. After a snowstorm, all hydrants shall be cleared of snow within 12 hours of the end of the snowfall.

5.3.5 All hydrants shall be free from plantings and other landscape features in order to ensure full access and use of the hydrant. The BFD shall have final authority to determine if the hydrant owner has complied with this provision.

5.3.6 All hydrants shall be kept accessible for emergency use at all times. BFD and W & S shall immediately be notified of any hydrants that are un-accessible or unusable for any reason.

5.4 Penalties and Fines

The penalty/fines for violation of this bylaw shall be as follows:

If the organization is a professional solicitor or a commercial co-venturer for a charitable organization, a copy of the contract with the charitable organization must be provided with this application. Failure to include a copy of the contract with the charitable organization under such circumstances will render the application incomplete and no action will be taken thereon.

7.5.3 Registration cards are non-transferable and valid only for the specific dates or time period specified thereon and in no case for longer than 60 days.

7.5.4 The Police Chief shall refuse to register an organization or individual whose registration has been revoked for violation of this by-law within the previous two year period, or who has been convicted of murder/manslaughter, rape, robbery, arson, burglary/breaking and entering, assault, larceny, as such persons pose a substantial degree of dangerousness to minors and other persons vulnerable to becoming victims of the violent crimes so listed. The Police Chief shall also refuse to register a person who is a sex offender required to register with the Sex Offenders Registry Board and who is finally classified as Level 2 or Level 3 Sex Offender, as such persons have been found to have a moderate to high risk of re-offense and pose a substantial degree of dangerousness to minors and other persons vulnerable to becoming victims of sex crimes.

If such a notice is posted, the solicitor, canvasser or other person shall immediately and peacefully depart from the premises.

7.7.2 Any solicitor, canvasser or other person who has gained entrance to any residence, whether invited or not, shall immediately and peacefully depart from the premises when requested to do so by the occupant.

- (a) Present his registration card for inspection by the occupant.
- (b) Request that the occupant read the registration card.
- (c) Inform the occupant in clear language of the nature and purpose of his or her business and, if he/she is representing an organization, the name and nature of that organization.
- (d) It shall be the duty of every organization employing solicitors or canvassers within the definition of this by-law to notify the Police Department daily as to what area(s) of the Town they will be operating in.

7.8 Restrictions on Methods of Solicitation or Canvassing Activities

It shall be unlawful for a solicitor, canvasser or other person to do any of the following:

G.L. c. 68, shall be subject to a fine not to exceed \$300.00 for each offense. Each day that a person solicits or canvasses without a license shall constitute a separate offense.

7.9.2 Any person or organization who for himself, itself, or through its agents, servants or employees shall violate any provision of sections 6.7 or 6.8 of this by-law, or any applicable state or federal laws governing soliciting or canvassing, including but not limited to M.G.L. c. 68, or who knowingly provides false information on the registration application, or who is found, after investigation by a police officer, to have conducted himself or itself in a threatening, abusive or illegal fashion, shall have his, her, or its registration revoked by the Chief of Police by written notice delivered to the holder of the registration in person, or sent to the holder by certified mail at the address set forth in the application.

7.9.3 Nothing in this bylaw shall preclude the Police Department from enforcing any applicable state or federal law, including, but not limited to, G.L. c. 101.

7.10 Appeals

Any person or organization who is denied registration or whose registration has been revoked may appeal by filing a written notice of appeal with the Board of Selectmen. Such appeal must be filed within five (5) days after receipt of the notice of denial or revocation. The Board of Selectmen shall hear the appeal at its next scheduled meeting after the filing of the written notice of appeal, provided, however, that if the Board of Selectmen fails to make a determination within thirty (30) days after the filing of the appeal, the registration shall be deemed granted or reinstated as the case may be.

7.11 Severability

Invalidity of any individual provision of this section shall not affect the validity of the by-law as a whole.

8.0 Civil Fingerprinting Bylaw

8.1 Purpose and Scope

This By-law authorizes the Police Department to conduct state and national fingerprint based criminal history checks for individuals applying for specific licenses in Town to enhance public safety, as authorized by Massachusetts General Laws Chapter 6, Section 172B½. To carry out the criminal history checks authorized by this By-law, the Police Department shall be authorized to use state and Federal Bureau of Investigation (“FBI”) records, provided, however, that such records shall not be disseminated to unauthorized entities and shall be maintained and disclosed in accordance with all applicable law.

The By-law further authorizes the Board of Selectmen, in consultation with the Chief of Police, to promulgate regulations to implement this By-law, which may include, but shall not be limited to, establishment of submission deadlines, procedures for making recommendations to the licensing authority or making a licensing as a result of the criminal history check, procedures for assessing, correcting or amending any such record, criteria for fitness determinations, security of information obtained and penalties for failure to comply with this by-law.

8.2 Criminal History Check Authorization

The Police Department shall, as authorized by Massachusetts General Laws Chapter 6, Section 172B½, conduct State and Federal Fingerprint Based Criminal History checks for individuals and entities for the following licenses:

- Hawking and Peddling or other Door-to-Door Salespeople

- Dealer of Second-hand Articles
- Pawn Dealers
- Hackney Drivers, and
- Ice Cream Truck Vendors
- Mobile Food Vendors

At the time of fingerprinting, the Police Department shall notify the individual being fingerprinted that the fingerprints will be used to check the individual's criminal history records and obtain the individual's consent. After the applicant completes a consent form, provides his/her fingerprints and the appropriate fee, the Police Department shall transmit the fingerprints it has obtained pursuant to this By-law to the Identification Section of the Massachusetts State Police, the Massachusetts Department of Criminal Justice Information Services ("DCJIS"), and/or the FBI or the successors of such agencies as may be necessary for the purpose of conducting fingerprint-based state and national criminal records background checks for the license applicants specified in this by-law.

The Town authorizes the Massachusetts State Police, the DCIS and the FBI and their successors, as may be applicable, to conduct fingerprint-based state and national criminal record background checks, including of FBI records, consistent with this By-law. The Town authorizes the Police Department to receive and utilize State and FBI records in connection with such background checks, consistent with this By-law and its implementing regulations. In accordance with its implementing regulations, the Police Department shall communicate the results of fingerprint-based criminal record background checks to the appropriate governmental licensing authority within the Town.

8.3 Use of Criminal Record by Licensing Authorities

Licensing authorities of the Town shall utilize the results of fingerprint-based criminal record background checks for the sole purpose of determining the suitability of the subjects of the checks in connection with the license applications specified in this by-law. A Town licensing authority may deny an application for a license on the basis of the results of a fingerprint-based criminal record background check if it determines that the results of the check render the subject unsuitable for the proposed licensed activity. The licensing authority shall consider all applicable laws, regulations and Town policies bearing on an applicant's suitability in making this determination.

Licensing authorities of the Town are hereby authorized to deny an application for any license specified herein and in the implementing regulations, including renewals and transfers of said licenses, from any person who is determined unfit for the license due to information obtained pursuant to this By-law. Factors that shall be considered in making a determination of fitness shall include, but not be limited to, whether the record subject has been convicted of, or is under pending indictment for a crime, that bears upon the subject's ability or fitness to serve in that capacity, including any felony or a misdemeanor that involved force or threat of force, possession of a controlled substance, or sex-related offense.

8.4 Fees

The fee charged by the Police Department for the purpose of conducting fingerprint-based criminal record background checks shall be one hundred dollars (\$100) for each fingerprinting and criminal history check. A portion of the fee, as specified in Massachusetts General Laws Chapter 6, Section 172B½, shall be deposited into the Firearms Fingerprint Identity Verification Trust Fund, and the remainder of the fee may be retained by the Town for costs associated with the administration of the fingerprinting system.

8.5 Effective Date

This by-law shall take effect after compliance with Massachusetts General Laws Chapter 40, Section 32 have been met.

ARTICLE XIV

ENVIRONMENT

1.0 Wetlands Protection Bylaw

1.1. Purpose

The purpose of this Bylaw is to protect the wetlands, water resources, flood prone areas, and adjoining upland areas in the Town of Burlington by controlling activities deemed by the Conservation Commission likely to have a significant effect on resource area interests deemed important to the community (collectively, the “resource area interests protected by this Bylaw”). These include but are not limited to the following:

- public or private water supply
- groundwater supply
- flood control
- erosion and sedimentation control
- storm damage prevention including water quality
- prevention and control of pollution
- fisheries
- wildlife habitat
- rare species habitat including rare plant and animal species
- recreational and educational values

This Bylaw is intended to utilize the Home Rule authority of Burlington so as to protect the resource areas under the Wetlands Protection Act (M.G.L. Ch.131 §40; the Act) to a greater degree, to protect additional resource areas beyond the Act recognized by the Town as significant, to protect all resource areas for their additional values beyond those recognized in the Act, and to impose in local regulations and permits additional standards and procedures stricter than those of the Act and regulations thereunder (310

CMR 10.00), subject, however, to the rights and benefits accorded to agricultural uses and structures of all kinds under the laws of the Commonwealth and other relevant Bylaws of the Town of Burlington. This Bylaw shall not be applicable to projects for which a Determination of Applicability, Order of Conditions, Order of Resource Area Delineation or other permit under the Massachusetts Wetlands Protection Act has been issued and is valid or if an application for one of the foregoing is pending at the effective date of this Bylaw. The Bylaw provisions in effect prior to the effective date of this Bylaw shall apply to a project for which such approval has been issued or for which such application is pending.

1.2. Jurisdiction

Except as permitted by the Conservation Commission no person shall remove, fill, dredge, build upon, degrade, discharge into, or otherwise alter the following resource areas as defined in the Burlington Wetland Bylaw Regulations: any freshwater wetlands; marshes; wet meadows; bogs; swamps; vernal pools; springs; banks; reservoirs; lakes; ponds; beaches; lands under water bodies; lands subject to flooding by groundwater or surface water; or lands adjoining these resource areas out to a distance of 100 feet, known as the buffer zone. The Commission may establish performance standards for work within the buffer zone to protect the aforementioned resource areas, however, the buffer zone itself is not a resource area.

Except as permitted by the Conservation Commission, no person shall remove, fill, dredge, build upon, degrade, discharge into, or otherwise alter the following resource areas: streams; brooks; creeks; rivers; lands adjoining these waterways out to a distance of 200 feet, known as the riverfront area. Said 200-foot riverfront resource area shall apply to all streams shown on the map “Regulatory Streams of Burlington” to be adopted and incorporated in regulations, whether the stream is perennial or intermittent.

All said resource areas (collectively the “resource areas protected by this Bylaw”) shall be protected whether or not they border surface waters.

1.3. Exemptions and Exceptions

The applications and permits required by this Bylaw shall not be required for work performed for normal maintenance or improvement of land in agricultural and aquacultural use as defined by the Wetlands Protection Act regulations at 310 CMR 10.04.

The applications and permits required by this Bylaw shall not be required for maintaining, repairing, or replacing, but not substantially changing or enlarging, an existing and lawfully located structure or facility used in the service of the public to provide electric, gas, water, telephone, telegraph, or other telecommunication services, provided that written notice has been given to the Conservation Commission prior to commencement of work, and provided that the work conforms to any performance standards and design specifications in regulations adopted by the Commission.

The applications and permits required by this Bylaw shall not be required for emergency projects necessary for the protection of the health and safety of the public, provided that the work is to be performed by or has been ordered to be performed by an agency of the Commonwealth or a political subdivision thereof; provided that advance notice, oral or written, has been given to the Commission prior to commencement of work or within 24 hours after commencement; provided that the Commission or its agent certifies the work as an emergency project; provided that the work is performed only for the time and place certified by the Commission for the limited purposes necessary to abate the emergency; and provided that within 21 days of commencement of an emergency project a permit application shall be filed with the Commission for review as provided by this Bylaw. Upon failure to meet these and other requirements of the Commission, the Commission may, after notice and a public hearing, revoke or modify an emergency project approval and order restoration and mitigation measures.

Other than stated in this Bylaw or in regulations adopted by the Commission, subsequent exemptions created under the Wetlands Protection Act (M.G.L. Ch. 131 §40) and regulations (310 CMR 10.00) shall not apply under this Bylaw.

1.4. Applications and Fees

A written permit application shall be filed with the Conservation Commission to perform activities with the potential to affect resource areas protected by this Bylaw. The Commission may accept digital electronic copies in lieu of paper copies. The permit application shall include such information and plans as are deemed necessary by the Commission to describe proposed activities and their effects on the resource areas protected by this Bylaw. No activities shall commence without receiving and complying with a permit issued pursuant to this Bylaw.

The Commission, in an appropriate case, may accept as the application and plans under this Bylaw any application and plans filed under the Wetlands Protection Act (M.G.L. Ch. 131 §40) and regulations (310 CMR 10.00), but the Commission is not obliged to do so.

Any person desiring to know whether or not a proposed activity or an area is subject to this Bylaw may in writing request a determination from the Commission. Such a Request for Determination of Applicability (RDA) or Abbreviated Notice of Resource Area Delineation (ANRAD) filed under the Act shall include information and plans as are deemed necessary by the Commission.

At the time of an application, the applicant shall pay a filing fee specified in regulations of the Commission. The fee is in addition to that required by the Wetlands Protection Act and regulations. Additionally, pursuant to M.G.L. Ch. 44 §53G and regulations promulgated by the Commission, the Commission may impose reasonable fees upon applicants for the purpose of securing outside consultants including engineers, wetlands scientists, wildlife biologists or other experts in order to aid in the review of proposed projects. Such funds shall be deposited with the town treasurer, who shall create an account specifically for this purpose. Additional consultant fees may be requested where the requisite review is more expensive than originally calculated or where new information requires additional consultant services.

Only costs relating to consultant work done in connection with a project for which a consultant fee has been

collected shall be paid from this account, and expenditures may be made at the sole discretion of the Commission. Any consultant hired under this provision shall be selected by, and report exclusively to, the Commission. The Commission shall provide applicants with written notice of the selection of a consultant, identifying the consultant, the amount of the fee to be charged to the applicant, and a request for payment of that fee. Notice shall be deemed to have been given on the date it is mailed or delivered. The applicant may withdraw the application or request within five (5) business days of the date notice is given without incurring any costs or expenses.

The entire fee, at a mutually agreed upon amount, must be received before the initiation of consulting services. Failure by the applicant to pay the requested consultant fee within ten (10) business days of the request for payment shall be cause for the Commission to declare the application administratively incomplete and deny the permit without prejudice, except in the case of an appeal. The Commission shall inform the applicant and Department of Environmental Protection (DEP) of such a decision in writing.

The applicant may appeal the selection of an outside consultant to the selectboard, who may disqualify the consultant only on the grounds that the consultant has a conflict of interest or is not properly qualified. The minimum qualifications shall consist of either an educational degree or three or more years of practice in the field at issue, or a related field. The applicant shall make such an appeal in writing, and must be received within fifteen (15) business days of the date that request for consultant fees was made by the Commission. Such appeal shall extend the applicable time limits for action upon the application.

1.5. Notice and Hearings

Any person filing any application permit other than an RDA, shall at the same time give written notice thereof, by certified mail (return receipt requested) or hand delivered, to all abutters at their mailing addresses shown on the most recent applicable tax list of the assessors, including owners of land directly opposite on any public or private street or way, and abutters to the abutters within 100 feet of the property line of the applicant, including any in another municipality or across a body of water. The notice shall state a brief description of the project or other proposal and the date of any Commission hearing or meeting date if known. The notice to abutters also shall include a copy of the application or request, with plans, or shall state where copies may be examined and obtained by abutters. An affidavit of the person providing such notice, with a copy of the notice mailed or delivered, shall be filed with the Commission. When a person requesting a determination is other than the owner, the request, the notice of the hearing and the determination itself shall be sent by the Commission to the owner as well as to the person making the request.

The Commission shall conduct a public hearing on any permit application (or public meeting for an RDA) with written notice given at least seven days prior to the hearing at the expense of the applicant, in a newspaper of general circulation in the municipality. The Commission shall commence the public hearing or public meeting within 21 days from receipt of a completed permit application, RDA, or ANRAD unless an extension is authorized in writing by the applicant. The Commission shall have authority to continue the hearing, with the applicant's consent, to a specific date announced at the hearing or meeting, for reasons stated at the hearing or meeting, which may include the need for additional information from the applicant or others as deemed necessary by the Commission in its discretion, based on comments and recommendations of the boards and officials listed in §1.6.

The Commission shall issue its permit, in writing within 21 days of the close of the public hearing thereon unless an extension is authorized in writing by the applicant. The Commission in an appropriate case may combine its hearing under this Bylaw with the hearing conducted under the Wetlands Protection Act (G.L. Ch.131 §40) and regulations (310 CMR 10.00).

1.6. Coordination with Other Boards

Any person filing a permit application, other than an RDA, with the Conservation Commission shall provide a copy thereof at the same time, by certified mail (return receipt requested) or hand delivery, to the Board of Selectmen, Planning Board, Board of Health, and Engineering Department. Digital electronic copies may be submitted in lieu of paper copies. A copy shall be provided in the same manner to the Commission of the adjoining municipality, if the property for which the application has been filed is within 100 feet of that municipality. An affidavit of the person providing notice, with a copy of the notice mailed or delivered, shall be

filed with the Commission. The Commission shall not take final action until the above boards and officials have had 10 calendar days from receipt of notice to file written comments and recommendations with the Commission, which the Commission shall take into account but which shall not be binding on the Commission. The applicant shall have the right to receive any comments and recommendations, and to respond to them at a hearing or meeting of the Commission, prior to taking final action.

1.7. Permits and Conditions

If the Conservation Commission, after a public hearing or meeting, determines that the activities which are subject to the permit application, or the land and water uses which will result therefrom, are likely to have a significant effect on the resource area values protected by this Bylaw, the Commission, within 21 days of the close of the hearing or meeting, shall issue or deny a permit for the activities requested. The Commission shall take into account the extent to which the applicant has avoided, minimized and mitigated any such effect.

If a permit is issued, the Commission shall impose conditions deemed necessary or desirable to protect said resource area values, and all activities shall be conducted in accordance with those conditions. Where no conditions are adequate to protect said resource area values, the Commission is empowered to deny a permit for failure to meet the requirements of this Bylaw. The Commission may also deny a permit:

- for failure to submit necessary information and plans requested by the Commission;
- for failure to comply with the procedures, design specifications, performance standards, and other requirements in regulations of the Commission; or
- for failure to avoid, minimize or mitigate unacceptable significant or cumulative effects upon the resource area values protected by this Bylaw.

Due consideration shall be given to any demonstrated hardship on the applicant by reason of denial, as presented at the public hearing. The Commission may waive specifically identified and requested procedures, design specifications, performance standards, or other requirements set forth in its regulations, provided that: the Commission finds in writing after said public hearing that there are no reasonable conditions or alternatives that would allow the proposed activity to proceed in compliance with said regulations; that avoidance, minimization and mitigation have been employed to the maximum extent feasible; and that the waiver is necessary to accommodate an overriding public interest or to avoid a decision that so restricts the use of the property as to constitute an unconstitutional taking without compensation.

In reviewing activities within the buffer zone, the Commission shall presume the buffer zone is important to the protection of other resource areas because activities undertaken in close proximity have a high likelihood of adverse impact, either immediately, as a consequence of construction, or over time, as a consequence of daily operation or existence of the activities. These adverse impacts from construction and use can include erosion, siltation, loss of groundwater recharge, poor water quality, and loss of wildlife habitat. The Commission may establish, in its regulations, design specifications, performance standards, and other measures and safeguards, including setbacks, no-disturb areas, no-build areas, and other work limits for protection of such lands, including strips of continuous, undisturbed vegetative cover, unless the applicant convinces the Commission that the area or part of it may be disturbed without harm to the values protected by the Bylaw.

In reviewing activities within the riverfront area, the Commission shall presume the riverfront area is important to all the resource area values unless demonstrated otherwise, and no permit issued hereunder shall permit any activities unless the applicant, in addition to meeting the otherwise applicable requirements of this Bylaw, has proved by a preponderance of the evidence that (1) there is no practicable alternative to the proposed project with less adverse effects, and that (2) such activities, including proposed mitigation measures, will have no significant adverse impact on the areas or values protected by this Bylaw. The Commission shall regard as practicable an alternative which is reasonably available and capable of being done after taking into consideration the proposed property use, overall project purpose (e.g., residential, institutional, commercial, or industrial), logistics, existing technology, costs of the alternatives, and overall project costs.

To prevent resource area loss, the Commission shall require applicants to avoid alteration wherever feasible; to minimize alteration; and, where alteration is unavoidable and has been minimized, to provide full mitigation. The

Commission may establish, in its regulations, design specifications, performance standards, and/or other measures and safeguards, including the establishment of thresholds and limitations on amounts of permissible alteration of resource areas. The Commission may authorize or require replication of wetlands as a form of mitigation, but only with specific plans, professional design, proper safeguards, adequate security, and professional monitoring and reporting to assure success, because of the high likelihood of failure of replication. Because of the uncertainty of the long-term viability of created wetlands, the Commission may, in its regulations, establish replication to fill ratio requirements exceeding 1:1.

If wetland resource areas are to be altered, the Commission may require a wildlife habitat study of the project area, to be paid for by the applicant, whenever a resource area alteration is proposed that exceeds thresholds established in regulations. The decision shall be based upon the Commission's estimation of the importance of the habitat area considering (but not limited to) such factors as proximity to other areas suitable for wildlife, importance of wildlife "corridors" in the area, or actual or possible presence of rare plant or animal species in the area. The work shall be performed by an individual who at least meets the qualifications set out in the wildlife habitat section of the Wetlands Protection Act regulations (310 CMR 10.60).

A permit shall expire three years from the date of issuance. At the discretion of the Commission, any permit may be renewed for additional three-year periods, provided that requests for renewals are received in writing by the Commission prior to each expiration. Notwithstanding the above, a permit may identify requirements which shall be enforceable for a stated number of years, indefinitely, or until permanent protection is in place, and shall apply to all present and future owners of the land.

For good cause the Commission may revoke any permit issued under this Bylaw after notice to the holder, the public, abutters, and town boards, pursuant to §1.5 and §1.6, and after a public hearing.

Amendments to permits shall be handled in the manner set out in the Wetlands Protection Act regulations and policies thereunder.

The Commission in an appropriate case may combine the decision issued under this Bylaw with the permit issued under the Wetlands Protection Act and regulations.

No work proposed in any application shall be undertaken until the permit, issued by the Commission with respect to such work, has been recorded in the registry of deeds or, if the land affected is registered land, in the registry section of the land court for the district wherein the land lies, and until the holder of the permit certifies in writing to the Commission that the document has been recorded.

The resource area "vernal pools", as defined in the regulations, includes all vegetated habitats within one-hundred feet of the seasonal high water of said pools. The Commission shall presume that both the inundated and adjacent upland areas provide essential habitat functions. This presumption may be overcome only by the presentation of credible evidence which, in the judgment of the Commission, demonstrates that the pool or adjacent upland does not provide essential habitat functions. Any formal evaluation shall be performed by an individual who at least meets the qualifications under the wildlife habitat section of the Wetlands Protection Act regulations (310 CMR 10.60).

1.8. Regulations

At a public meeting and in accordance with the Open Meeting Law, the Conservation Commission may promulgate rules and regulations to effectuate the purposes of this Bylaw, effective when voted and filed with the town clerk. Failure by the Commission to promulgate such rules and regulations or a legal declaration of their invalidity by a court of law shall not act to suspend or invalidate the effect of this Bylaw. At a minimum these regulations shall reiterate the terms defined in this Bylaw, define additional terms not inconsistent with the Bylaw, and establish filing and consultant fees.

1.9. Definitions

Except as otherwise provided in this by-law or in regulations of the Commission, the definitions of terms in this

1.10. Security

As part of a permit issued under this Bylaw, in addition to any security required by any other municipal or state board, agency, or official, the Conservation Commission may require that the performance and observance of the conditions imposed thereunder (including conditions requiring mitigation work) be secured wholly or in part by one or both of the methods described below:

(a) By a proper bond, deposit of money or negotiable securities under a written third-party escrow arrangement, or other undertaking of financial responsibility sufficient in the opinion of the Commission, to be released in whole or in part upon issuance of a COC for work performed pursuant to the permit.

(b) By accepting a conservation restriction, easement, or other covenant enforceable in a court of law, executed and duly recorded by the owner of record, running with the land to the benefit of the Town of Burlington whereby the permit conditions shall be performed and observed before any lot may be conveyed other than by mortgage deed. This method shall be used only with the consent of the applicant.

1.11. Enforcement

No person shall remove, fill, dredge, discharge into, build upon, degrade, or otherwise alter resource areas protected by this Bylaw, or cause, suffer, or allow such activity, or leave in place unauthorized fill, or otherwise fail to restore illegally altered land to its original condition, or fail to comply with a permit or an enforcement order issued pursuant to this Bylaw.

The Conservation Commission, its agents, officers, and employees shall have authority to enter upon privately owned land for the purpose of performing their duties under this Bylaw and may make or cause to be made such examinations, surveys, or sampling as the Commission deems necessary, subject to the constitutions and laws of the United States and the Commonwealth.

Ch. 40 §21D, the Town of Burlington Bylaws, Article 1, General Provisions, §4, and civil and criminal court actions. Any person who violates provisions of this Bylaw may be ordered to restore the property to its original condition and take other action deemed necessary to remedy such violations, or may be fined, or both.

Upon request of the Commission, the Board of Selectmen and Town Counsel may take legal action for enforcement under civil law. Upon request of the Commission, the chief of police may take legal action for enforcement under criminal law. Municipal boards and officers, including any police officer or other officer having police powers, shall have authority to assist the Commission in enforcement.

Any person who violates any provision of this Bylaw, regulations, permits, or administrative orders issued thereunder, may be punished by a fine of not more than Three Hundred Dollars (\$300.00) per day.

Each day or portion thereof during which a violation continues, or unauthorized fill or other alteration remains in place, shall constitute a separate offense, and each provision of the Bylaw, regulations, permits, or administrative orders violated shall constitute a separate offense.

Any person who purchases, inherits or otherwise acquires real estate upon which work has been done in violation of the provisions of this Bylaw, or in violation of any order issued under this Bylaw, shall forthwith comply with any such order or restore such land to its condition prior to any such violation; provided, however, that no action, civil or criminal, may be brought against such person unless such action is commenced within three years following the recording of the deed of the date or the death by which such real estate was acquired by such person.

1.12. Burden of Proof

The applicant for a permit shall have the burden of proving by a preponderance of the credible evidence that the work proposed in the permit application will not have unacceptable significant or cumulative effect upon the resource area values protected by this Bylaw. Failure to provide adequate evidence to the Conservation Commission supporting this burden shall be sufficient cause for the Commission to deny a permit or grant a permit with conditions.

1.13. Appeals

A decision of the Conservation Commission may be reviewable in the superior court in accordance with M.G.L. Ch. 249 §4.

1.14. Relation to the Wetlands Protection Act

This Bylaw is adopted under the Home Rule Amendment of the Massachusetts Constitution and the Home Rule statutes, independent of the Wetlands Protection Act (G.L. Ch. 131 §40) and regulations (310 CMR 10.00) thereunder. In the event of an ambiguity or conflict as to the meaning of any “resource area” or other definitions, the definitions in this Bylaw or regulations promulgated under this Bylaw shall control. It is the intention of this Bylaw that the purposes, jurisdiction, authority, exemptions, regulations, specifications, standards, and other requirements shall be interpreted and administered as stricter than those under the Wetlands Protection Act and regulations.

1.15. Severability

The invalidity of any section or provision of this Bylaw shall not invalidate any other section or provision thereof, nor shall it invalidate any permit, approval or determination which previously has been issued.

BURLINGTON STORM WATER MANAGEMENT BYLAW GOVERNING EROSION AND SEDIMENTATION CONTROL FOR NEW AND REDEVELOPMENT PROJECTS DURING CONSTRUCTION AND POST-CONSTRUCTION PERIODS.

6.0 Erosion and Sedimentation Control

6.1 Purpose and Objective

Regulation of discharges to the municipal separate storm sewer system (MS4) is necessary for the protection of Burlington's water bodies and groundwater, and to safeguard the public health, safety, welfare and the environment. Increased and contaminated storm water runoff associated with developed land uses and the accompanying increase in impervious surface are major causes of impairment of water quality and flow in lakes, ponds, streams, rivers, wetlands and groundwater.

A. The harmful impacts of soil erosion and sedimentation are:

1. impairment of water quality and flow in lakes, ponds, streams, rivers, wetlands and groundwater;
2. contamination of drinking water supplies;
3. alteration or destruction of aquatic and wildlife habitat;
4. flooding;
5. erosion of stream channels; and
6. overloading or clogging of municipal catch basins and storm drainage systems.

This bylaw establishes storm water management standards for the temporary and final conditions that result from development and redevelopment projects to minimize adverse impacts offsite and downstream which would be born by abutters, townspeople and the general public. This bylaw complies with EPA regulations [National Pollutant Discharge Elimination System](#) (NPDES) Phase II final rule (Dec 8, 1999) requiring regulated municipalities reduce the discharge of pollutants in stormwater to the maximum extent practicable and adopt bylaws to address the control of sources of pollutants entering the municipal storm drain system.

B. The objectives of this bylaw are to:

1. Protect ground water and surface water to prevent degradation of drinking water supply
2. Require practices that eliminate soil erosion and sedimentation and control the volume and rate of storm water

runoff resulting from land disturbing activities;

3. Promote infiltration and the recharge of groundwater;

4. Ensure that soil erosion and sedimentation control measures and storm water runoff control practices are incorporated into the site planning and design process and are implemented and maintained;

5. Require practices to control waste such as discarded building materials, concrete truck washout, chemicals, litter, and sanitary waste at a construction site that may cause adverse impacts to water quality;

6. To prevent pollutants from entering the Burlington municipal separate storm sewer system (MS4) and to minimize discharge of pollutants from the MS4;

7. To ensure adequate long-term operation and maintenance of structural storm water best management practices so that storm water structures work as designed;

8. Comply with state and federal statutes and regulations relating to storm water discharges; and

9. Establish Burlington's legal authority to ensure compliance with the provisions of this by-law through inspection, monitoring, and enforcement.

6.5 Responsibility for Administration

A. Responsibility. The Burlington Conservation Commission shall be the lead agency that may grant waivers and promulgate regulations to support this bylaw as specified in Sections 5B and 5C below. The Conservation Commission and the Burlington Planning Board shall have shared responsibilities to administer and implement this bylaw. Any powers granted to or duties imposed upon either the Conservation Commission or the Planning Board may be delegated to their respective employees and/or their agents, and with mutual concurrence these duties may be delegated to each other's respective employees and/or their agents.

B. Waiver. The Conservation Commission will be the lead agency to grant a waiver to compliance with this bylaw. The Commission with input from the Planning Board, may waive strict compliance with any requirement of this by-law or the rules and regulations promulgated hereunder, where:

- (1) such action is allowed by federal, state and local statutes and/or regulations, and
- (2) is in the public interest, and
- (3) is not inconsistent with the purpose and intent of this by-law.

C. Rules and Regulations. The Conservation Commission will be the lead agency to initiate a change to this bylaw. The Conservation Commission working with input from the Planning Board may adopt, and periodically amend rules and regulations to effectuate the purposes of this by-law, by majority vote of the Conservation Commission, after conducting a public hearing to receive comments on any proposed revisions. Such hearing dates shall be advertised in a newspaper of general local circulation, at least seven (7) days prior to the hearing date.

Failure by The Conservation Commission to promulgate such rules and regulations shall not have the effect of suspending or invalidating this by-law.

6.6 Permits and Procedures

A. Application. Where a land disturbing activity of 20,000 ft² or greater OR a land disturbing activity of 500 yd³ or greater of earth volume is proposed, the site owner or his/her agent shall file with the Conservation Commission, eleven(11) copies of a completed application package with a cover sheet specified by the Commission (available from the Commission office or the Commission's web site) (one for each Commissioner, 2 office copies, and 2 for distribution to other Boards (Board of Health and Planning Board) for an Erosion and Sedimentation Control Permit. Permit issuance is required prior to any site altering activity. While the applicant can be a representative of the site owner, the permittee must be the owner of the site.

The Conservation Commission (through its agent, the Conservation Commission Administrator) may, at its discretion, elect to delegate its authority to the Planning Board to issue an Erosion and Sedimentation Control Permit, in order to expedite the permitting process for an applicant who must appear before the Planning Board for other matters in connection with the proposed work.

Within 7 days of the filing date, the Conservation Commission (through its agent) will make a determination on whether to schedule a formal hearing before the Commission or delegate its authority under this bylaw to the Planning Board. This determination will be made based on an assessment of the potential for sedimentation and erosion from the proposed land disturbing activity (including grubbing, clearing and/or grading). The Commission's agent will give consideration to the original and proposed grading of the site, existing slopes, the presence of intermittent streams or channels, the size of the site, and/or other factors which may contribute to runoff and erosion potential. Proposed projects where routine erosion and sedimentation controls are needed, will be referred to the Planning Board for a simultaneous hearing for this permit with other matters in connection with this project.

If the Conservation Commission or its agent delegates its authority under this bylaw to the Planning Board, the staff of the Conservation Commission will transfer the original application package (and associated copies) to the Planning Board office and notify the applicant in writing of the Commission's decision to refer this application to the Planning Board and that the hearing under this bylaw will be scheduled before the Planning Board within twenty-one (21) days of the receipt of a complete application or at a time to coincide with other regulatory matters which are being heard by the Board on the same project..

For sites where a land disturbing activity of greater than or equal to 10,000 ft² but less than 20,000 ft² is proposed, the site owner or his/her agent shall file (at their option) with either the Conservation Commission or the Planning Board, two (2) copies of a completed application package for a Standard Erosion and Sedimentation Control Permit. Permit issuance is required prior to any site altering activity. While the applicant can be a representative of the site owner, the permittee must be the owner of the site.

Within 7 days of the filing date, the agent of either the Conservation Commission or Planning Board will issue a Standard Erosion and Sedimentation Control Permit under this bylaw. No public meeting or hearing will be required for sites in this category. For sites in this size category that are not adequately covered by the Standard Erosion and Sedimentation Control Permit, additional special conditions may be appended by the issuing Board or Commission. The issuing Board or Commission may extend the 7 day turnaround time for issuing the Standard Erosion and Sedimentation Control Permit for reasons of insufficient information of which the applicant has been notified in writing.

The Erosion and Sedimentation Control Application package (for sites which propose a land disturbing activity of 20,000 ft² or greater) shall include:

1. a completed Application Form with original signatures of all owners;
2. a list of abutters, certified by the Assessors Office;
3. eleven (11) copies of the Storm Water Management Plan and project description referenced in Section 6.7. of this bylaw.;
4. eleven (11) copies of the Erosion and Sediment Control Plan as referenced in Section 6.8 of this bylaw;
5. eleven (11) copies of the Operation and Maintenance Plan as referenced by Section 6.9 of this bylaw;
6. payment of the application and review fees.

The Standard Erosion and Sedimentation Control Application package (for sites which propose a land disturbing activity equal to or greater than 10,000 ft² but less than 20,000 ft²) is an application package consisting of an abbreviated Storm Water Management Plan, abbreviated Erosion and Sediment Control Plan, and an abbreviated Operations and Maintenance plan as referenced in Section 6.10 of this bylaw.

B. Entry. Filing an application for a permit grants the issuing Board or Commission and its agents permission to enter the site to verify the information in the application and to inspect for compliance with permit conditions.

C. Coordination Between Planning Board and Conservation Commission. For sites which propose a land disturbing activity equal to or greater than 10,000 ft² but less than 20,000 ft², the Conservation Commission shall give one copy of the application package to the Planning Board for their records. If the Planning Board is the issuing agency, then the Planning Board shall give one copy of the application package to the Conservation Commission for their records.

D. Fee Structure. For sites which propose a land disturbing activity equal to or greater than 20,000 ft², the issuing Board / Commission shall obtain with each submission an Application Fee established by the Conservation Commission with input from the Planning Board to cover expenses connected with the public hearing and application review for the Erosion and Sedimentation Control Permit and a technical Review Fee (if requested by the Commission/Board) sufficient to cover professional technical review, if needed. The Commission / Board is authorized to retain a Registered Professional Engineer or other professional consultant to advise the issuing Commission/Board on any or all aspects of these plans as provided by G.L.c. 44, Section 53G. Applicants must pay all review fees due before a permit will be issued. The Commission/Board will not be subject to final action deadlines if the appropriate fees have not been paid.

For sites which propose a land disturbing activity equal to or greater than 10,000 ft² but less than 20,000 ft², a reduced fee schedule will be established by the Commission.

E. Public Hearing. For sites which propose a land disturbing activity equal to or greater than 20,000 ft², the issuing Commission/Board shall hold a public hearing within twenty-one (21) days of the receipt of a complete application (or a greater timeframe as mutually agreed upon) and shall take final action within either twenty-one (21) days from the time of the close of the hearing or within such longer time period mutually agreed to by both the Commission / Board and the applicant to coincide with other regulatory decisions on the same project. Notice of the public hearing shall be given by publication and posting, and by first-class mailings to abutters (owners of land within three hundred feet from the boundary of the site) at least seven (7) days prior to the hearing. The issuing Commission/Board shall make the application available for inspection by the public during business hours at the issuing Commission/Board office.

F. Information requests. The applicant shall submit all additional information requested by issuing Commission/Board to issue a decision on the application.

G. Action by the Issuing Commission/Board.

For sites which propose a land disturbing activity equal to or greater than 20,000 ft², the issuing Commission/Board may:

Failure of the Issuing Commission/Board to take final action upon an Application for a land disturbing activity equal to or greater than 20,000 square feet within either within twenty-one (21) days from the time of the close of the hearing or within such longer time period mutually agreed to by both the Commission / Board and the applicant to coincide with other regulatory decisions on the same project, shall be deemed to be approval of said Application.

I. Project Changes. The permittee must notify the issuing Commission/Board in writing of any drainage change or alteration in the system authorized in a Erosion and Sedimentation Control Permit before any change or alteration is made. If the issuing Commission/Board determines that the change or alteration is significant, based on the Storm Water Management Standards

in Section 6.7 C of this bylaw and accepted construction practices, the issuing Commission/Board may require that an amended application be filed and a public hearing held. The issuing Commission/Board may also require the installation of interim erosion and sedimentation control measures before approving the change or alteration.

J. Project Completion. At completion of the project, the permittee shall submit as-built record drawings of all structural storm water controls and best management practices implemented for the site. The as-built drawing shall show deviations from the approved plans, if any, and be certified by a Registered Professional Engineer.

The purpose of this bylaw is to protect Burlington's water bodies and groundwater, and to safeguard the public health, safety, welfare and the environment through the regulation of non-storm water discharges to the storm drainage system to the maximum extent practicable as required by federal and state law. Increased and contaminated storm water runoff is a major cause of impairment of water quality and flow in lakes, ponds, streams, rivers, wetlands and groundwater; contamination of drinking water supplies; alteration or destruction of aquatic and wildlife habitat; and flooding. This bylaw establishes methods for controlling the introduction of pollutants into the municipal separate storm sewer system (MS4) in order to comply with requirements of the National Pollutant Discharge Elimination System (NPDES) general permit. The objectives of this bylaw are:

1. To regulate the contribution of pollutants to the municipal separate storm sewer system (MS4) by storm water discharges by any user;
2. To prohibit Illicit Connections and Discharges to the municipal separate storm sewer system;
3. To require the removal of all such illicit connections;
4. To establish legal authority to carry out all inspection, surveillance and monitoring procedures necessary to ensure compliance with this bylaw; and
5. To establish the legal authority to ensure compliance with the provisions of this bylaw through inspection, monitoring, and enforcement.

14. Discharge for which advanced written approval is received from the Board of Health as necessary to protect public health, safety, welfare or the environment.

7.9 EMERGENCY SUSPENSION OF STORM DRAINAGE SYSTEM ACCESS

A. Suspension due to Illicit Discharges in Emergency Situations. The Board of Health and its Agents designated to enforce this bylaw may, without prior notice, suspend MS4 discharge access to a person when such suspension is necessary to stop an actual or threatened discharge which presents or may present imminent and substantial danger to the environment, or to the health or welfare of persons, or to the MS4 or Waters of the United States. If the violator fails to comply with a suspension order issued in an emergency, the authorized enforcement agency may take such steps as deemed necessary to prevent or minimize damage to the MS4 or Waters of the United States, or to minimize danger to persons.

B. Suspension due to the Detection of Illicit Discharge. Any person discharging to the MS4 in violation of this bylaw may have their MS4 access terminated if such termination would abate or reduce an illicit discharge. The authorized enforcement agency will notify a violator of the proposed termination of its MS4 access. The violator may petition the Board of Health for a reconsideration and hearing.

A person commits an offense of this bylaw if the person reinstates MS4 access to premises terminated pursuant to this Section, without the prior approval of the authorized enforcement agency.

In the event of a release of oil or hazardous materials, the person shall immediately notify the municipal fire and police departments and Board of Health. In the event of a release of non-hazardous material, the reporting person shall notify the Board of Health no later than the next business day. The reporting person shall provide to the Board of Health written confirmation of all telephone, facsimile or in-person notifications within three business days thereafter. If the discharge of prohibited materials is from a commercial or industrial facility, the facility owner or operator of the facility shall retain on-site a written record of the discharge and the actions taken to prevent its recurrence. Such records shall be retained for at least three years.

7.12 ENFORCEMENT

The Board of Health and its Agents shall enforce this bylaw, regulations, orders, violation notices, and enforcement orders, and may pursue all civil and criminal remedies for such violations as noted below:

A. Civil Relief. If a person violates the provisions of this bylaw, regulations, permit, notice, or order issued thereunder, this Board may seek injunctive relief in a court of competent jurisdiction restraining the person from activities which would create further violations or compelling the person to perform abatement or remediation of the violation.

B. Orders. The Board of Health and its Agents designated to enforce this bylaw may issue a written order to enforce the provisions of this bylaw or the regulations thereunder.

Orders of this Board may include:

- (a) elimination of illicit connections or discharges to the MS4;
- (b) performance of monitoring, analyses, and reporting;
- (c) that unlawful discharges, practices, or operations shall cease and desist; and
- (d) remediation of contamination in connection therewith.

The issuance of an enforcement order by a Board of Health Agent without a prior vote of the Board of Health to address conditions that require immediate attention, is subject to ratification by the Board of Health at its next regularly scheduled meeting.

The party responsible for completing monitoring, abatement or remediation must contract a person licensed to conduct such work, as necessary. During and upon completion of the work, the professional opinion of this licensed person and a final report will be required to be submitted to the Board of Health in summary and certification of said work being accomplished.

If the enforcing person determines that abatement or remediation of contamination is required, the order shall set forth a deadline by which such abatement or remediation must be completed. Said order shall further advise that, should the violator or property owner fail to abate or perform remediation within the specified deadline, the Town of Burlington may, at its option, seek a court order requiring the property owner to perform the work.

C. Criminal Penalty. Any person who violates any provision of this bylaw, regulation, order or permit issued thereunder, shall be punished by a fine. Each day or part thereof that such violation occurs or continues shall constitute a separate offense.

D. Non-Criminal Disposition. As an alternative to criminal prosecution or civil action, the Town of Burlington may elect to utilize the non-criminal disposition procedure set forth in G.L. Ch. 40, S21D in which case the Environmental Engineer is authorized to be the enforcing person designated to issues non-criminal disposition penalties. The penalty for the 1st violation shall be \$100. The penalty for the 2nd violation shall be \$300. The penalty for the 3rd and subsequent violations shall be \$300. Each day or part thereof that such violation occurs or continues shall constitute a separate offense.

E. Appeals. The enforcement decisions or orders of the Board of Health and its Agents shall be final unless modified or reversed in a public meeting of the Board of Health. Persons aggrieved by an enforcement action by the Board of Health and/or its Agents designated to enforce this bylaw may request a public meeting with the Board of Health within 7 days of written enforcement action to review the circumstances and decisions related to the enforcement action. At this hearing, any affected party has the right to appear, and have the right to inspect and obtain copies of all relevant inspection and investigation reports, orders, notices, and other documentary evidence. If further relief by aggrieved persons is desired, such relief shall be to a court of competent jurisdiction.

F. Remedies Not Exclusive. The remedies listed in this bylaw are not exclusive of any other remedies available under any applicable federal, state or local bylaw.

7.13 MONITORING OF DISCHARGES

A. Applicability. This section applies to all facilities that have storm water discharges associated with industrial activity, including construction activity.

B. Access to Facilities. Access to facilities shall be governed by the following:

1. To the extent permitted by state law and if probable cause exists, or if authorized by the owner or other party in control of property which is not permitted with an NPDES Permit, the Board of Health and its Agents may enter upon privately owned property for the purpose of performing their duties under this bylaw and regulations and may make or cause to be made such examinations, surveys or sampling as the Board of Health deems reasonably necessary. If a discharger has security measures in force which require proper identification and clearance before entry into its premises, the discharger shall make the necessary arrangements to allow access to representatives of the authorized enforcement agency.

2. Under the conditions for access stated in Part (a) above, facility operators shall allow the Board of Health and its Agents designated to enforce this bylaw, ready access to all parts of the premises for a facility not already regulated with a NPDES Permit for the purposes of inspection, sampling, examination and copying of records relating to the discharge of storm water that may contain sewage, hazardous materials or wastes, or other pollutants, and the performance of any additional duties as defined by state and federal law. For NPDES permit holders, the Town of Burlington will contact the appropriate U.S. Environmental Protection Agency enforcing agents to inform them of suspected violations of an NPDES permit for discharges from that facility.

3. The Board of Health and its Agents designated to enforce this bylaw shall have the right to set up on any non-NPDES facility such devices as are necessary in the opinion of the authorized enforcement agency to conduct monitoring and/or sampling of the facility's storm water discharge.

4. The Board of Health and its Agents designated to enforce this bylaw has the right to require the discharger to install monitoring equipment as necessary. The facility's sampling and monitoring equipment shall be maintained at all times in a safe and proper operating condition by the discharger at its own expense. All devices used to measure storm water flow and quality shall be calibrated to ensure their accuracy.

5. Any temporary or permanent obstruction to safe and easy access to the facility to be inspected and/or sampled shall be promptly removed by the operator at the written or oral request of the Board of Health and its Agents designated to enforce this bylaw and shall not be replaced. The costs of clearing such access shall be borne by the operator.

6. If the Board of Health and its Agents designated to enforce this bylaw has been refused access to any part of the premises from which storm water is discharged, and he/she is able to demonstrate probable cause to believe that there may be a violation of this bylaw, or that there is a need to inspect and/or sample as part of a routine inspection and sampling program designed to verify compliance with this bylaw or any order issued hereunder, or to protect the overall public health, safety, and welfare of the community, then the authorized enforcement agency may seek issuance of a search warrant from any court of competent jurisdiction.

7.14 REQUIREMENT TO PREVENT, CONTROL, AND REDUCE STORM WATER POLLUTANTS BY THE USE OF BEST MANAGEMENT PRACTICES.

The Board of Health designated to enforce this bylaw may adopt requirements identifying Best Management Practices for any activity, operation, or non-NPDES permitted facility which may cause or contribute to pollution or contamination of storm water, the storm drain system, or waters of the U.S.

Further, any person responsible for a property or premise, which is, or may be, the source of an illicit discharge, may be required to implement, at said person's expense, additional structural and non-structural BMPs to prevent the further discharge of pollutants to the municipal separate storm sewer system.

For NPDES permitted facilities, compliance with all terms and conditions of a valid NPDES permit authorizing the discharge of storm water associated with industrial activity, to the extent practicable, shall be deemed compliance with the provisions of this section. In the event that the Board of Health determines that additional BMPs may be required for NPDES permitted facilities, the Board of Health may at its option, ask for EPA to review the terms of the facility's NPDES permit to determine if additional best management practices may be required.

In the event that said person responsible for a non-NPDES property or premise, believes that said compliance with additional BMPs is not required, the Board of Health may issue an enforcement order requiring such compliance. If said person refuses to comply with such order for implementing additional BMPs, then the Town of Burlington may seek a court order requiring such implementation.

Compliance with this bylaw, its regulations or BMPs, or policies promulgated under this bylaw does not imply that there will be no contamination, pollution, nor unauthorized discharge of pollutants. Compliance with this bylaw, its regulations or BMPs, or policies promulgated under this bylaw also does not relieve a person from being subject to such enforcement actions as may be required to correct contamination, pollution, and/or unauthorized discharge of pollutants.

7.15 COMPENSATORY ACTION

In lieu of enforcement proceedings, penalties, and remedies authorized by this Bylaw, the authorized enforcement agency may impose upon a violator alternative compensatory actions, such as storm drain stenciling, attendance at compliance workshops, creek cleanup, etc.

7.16 SEVERABILITY

The provisions of this bylaw are hereby declared to be severable. If any provision, paragraph, sentence, or clause, of this bylaw or the application thereof to any person, establishment, or circumstances shall be held invalid, such invalidity shall not affect the other provisions or application of this bylaw.

7.17 TRANSITIONAL PROVISIONS

Residential property owners shall have 60 days from the effective date of the bylaw to comply with its provisions provided good cause is shown for the failure to comply with the bylaw during that period.

7.18 REMEDIES NOT EXCLUSIVE

The remedies listed in this bylaw are not exclusive of any other remedies available under any applicable federal, state or local law and it is within the discretion of the authorized enforcement agency to seek cumulative remedies.

Note: Amended Art. 8 TM 9/25/06. App. AG 10/31/06. Posted 11/20/06.

8.0 DEMOLITION PERMIT DELAY

8.1 Intent and Purpose

It is the intent and purpose of this bylaw to preserve and protect from demolition, whenever possible, historically significant buildings or structures which reflect distinctive features of the architectural, cultural, political, economic, and/or social history of the town; to encourage owners of such buildings or structures to explore and develop alternatives to such demolition; to seek out persons or entities who might be willing to purchase, preserve, rehabilitate or restore such buildings or structures rather than demolish them; and thereby to preserve the historic resources of the Town, and to make the Town a more attractive and desirable place in which to live, and so promote the general welfare.

8.2 Procedure

8.2.1 Notice of Intent to Demolish

No demolition permit shall be issued for any building or structure which was constructed one hundred (100) or more years prior to the year of application, other than in conformity with the provisions of this Bylaw. An application for a demolition permit shall first be filed by the applicant and/or property owner with the Inspector of Buildings, and a copy of such application shall be forwarded within one (1) week by the Inspector of Buildings to the Historical Commission, the Board of Selectmen, and the Planning Board. Such application shall be in the form provided and established by the Inspector of Buildings and shall include a copy of the demolition plan, a description of the building or structure to be

demolished, the reasons for the demolition and the proposed reuse of the property. If the applicant and/or property owner is unable to specify the exact age of the building or structure, the application shall so state and shall set forth the most approximate age known and the basis for such approximation.

8.2.2 Determination

The Historical Commission shall, within fifteen (15) days after receipt of the application for a demolition permit, make a determination whether the building is historically significant.

Non-Applicability

Upon determination by the Historical Commission that the building is not historically significant, the Historical Commission shall submit a negative finding to the applicant and/or property owner, and a copy thereof shall be furnished to the Inspector of Buildings. Upon receipt of such notification, or after the expiration of fifteen (15) days from the date of submission of the demolition permit to the Historical Commission, the Inspector of Buildings may issue the demolition permit.

Determination of Significance

Upon determination by the Historical Commission that the building is historically significant, the Historical Commission shall submit a positive finding to the applicant and/or property owner, and a copy thereof shall be furnished to the Inspector of Buildings who shall not issue a demolition permit. The Historical Commission shall then hold a public hearing on the matter according to Section 8.2.3.

8.2.3 Public Hearing

The Historical Commission shall hold a public hearing within twenty (20) days after a positive Determination of Significance to determine whether the building should be preferably preserved. The Public Hearing shall be held pursuant to applicable statutory requirements. The newspaper publication and abutter notification shall be completed by the Historical Commission at the expense of the applicant. The Historical Commission shall complete the following:

a) Hold a public hearing to determine the following:

- (i) if the proposed demolition of the historically significant building or structure would be detrimental to the historical or architectural heritage or resources of the Town, and therefore, such building or structure shall be considered preferably preserved;
- (ii) if less than a complete demolition is proposed, whether the work to be done will materially diminish its historical significance, and
- (iii) to explore alternatives to demolition.

b) Submit such determination according to Section (a) in writing to the Inspector of Buildings and the applicant and/or property owner.

8.2.4 Determination of Non-Applicability

If after the Public Hearing the Historical Commission determines that the building or structure is not historically significant, or where less than a complete demolition is being proposed that the work to be done will not materially diminish its historical significance, then the Historical Commission shall within seven (7) days after the Public Hearing notify the Inspector of Buildings of its determination. The Inspector of Buildings may thereafter proceed with the proposed demolition in accordance with applicable law. The failure of the Historical Commission to issue its written determination within seven (7) days after such hearing shall be deemed to constitute a determination that the building or structure is not considered preferably preserved.

8.2.5 Determination of Applicability and Delay of Demolition

If after the Public Hearing the Historical Commission determines that the building or structure is preferably preserved and that the proposed work would materially diminish its historical significance, then the Historical Commission shall notify the Inspector of Buildings with seven (7) days after the Public Hearing of its determination. The Historical Commission is hereby empowered to impose a demolition delay of up to six (6) months from the date of such determination. Written notice of its determination and the period of delay imposed shall be mailed promptly to the applicant and/or property owner, and a copy thereof shall be furnished to the Inspector of Buildings who shall not issue a demolition permit during the period specified therein; provided, however, that such permit may be issued prior to the end of such period if the Historical Commission notifies the Inspector of Buildings that the applicant and/or owner (i) has made a bona fide, reasonable and unsuccessful effort to locate a purchaser for the building or structure who has agreed to, preserve, rehabilitate, restore or relocate same, or (ii) has agreed to alternatives to demolition as set forth in Section 8.3.

8.3 Alternatives to Demolition

If the Historical Commission imposes a demolition delay as set forth in Section 8.2.5 and/or if alternatives to demolition are developed in the public hearing which are acceptable to the applicant and/or owner, then the Historical Commission is hereby empowered, in its discretion, to enter into an agreement with such applicant and/or property owner providing for such alternatives and a time period for implementation of same. A copy of said agreement shall be filed with the Inspector of Buildings and any other applicable Town agency, and thereafter no work shall be done on the building or structure except in accordance with the terms of said agreement unless and until a new application for a demolition permit is filed and processed hereunder.

8.4 Expiration of Demolition Delay

At the end of any period of demolition delay as set forth in this bylaw, including any alternatives agreed upon pursuant to Section 8.3, the Historical Commission shall notify the Inspector of Buildings that the period of delay has expired, and the applicant and/or property owner shall be entitled to apply for all necessary demolition permits to allow the work to go forward as set forth in the Demolition Permit, and pursuant to applicable law.

8.5 Emergency Demolition

Nothing in this bylaw shall restrict or prevent the Inspector of Buildings from ordering the immediate demolition of any building or structure which is determined to be imminently dangerous or unsafe to the public. The Inspector of Buildings shall file a copy of any such order of emergency demolition with the Historical Commission.

8.6 Enforcement and Remedies

8.6.1 Enforcement

The Inspector of Buildings shall have the authority to enforce this Bylaw.

8.6.2 Non-Compliance

Anyone who undertakes demolition of any building or structure without complying with the provisions of this bylaw shall be subject to a fine of three hundred dollars (\$300.00). Each day such violation continues following such demolition shall constitute a separate offense.

8.6.3 Issuance of Building Permit

No building permit shall be issued or be valid for any parcel or premises upon which a historically significant building or structure, or property listed in the Cultural Resources Inventory, has been demolished by an intentional or grossly negligent violation of this bylaw for a period of up to two (2) years after completion of such demolition.

8.6.4 Multiple Remedies

The remedies and enforcement procedures set forth in this Section may be applied separately or in conjunction with one

another, or to act in any other manner in relation thereto.

- 9.2 To support light pollution reduction efforts and glare reduction methods at the local Town level; and
