Proposed Change(s)

Please list proposed change(s) below. Include a statement supporting the basis for a "Minor Engineering Change". Attach additional pages as needed as well as redlined plans illustrating the proposed change(s). All pages of the plan that are affected must be redlined with proposed change(s).

The proposed work will include parking lot rehabilitation (pavement, striping, replacement of light poles). The proposed work will also include installation of four deep-sump catchbasins, an infiltration system, and two stormwater treatment units. There are no changes in grading other than minor adjustments to allow stormwater runoff to flow efficiently to catch basins and to add three additional handicap accessible parking spaces near the entrance of the facility. The existing light pole bases are to be used with the except of one that needs to be moved at the handicapped parking spaces.
