The Burlington Sidewalk Study Committee held a public hearing to present its draft report and solicit feedback from the Burlington community.

Feedback received and questions asked include the following:

- The committee was asked to consider recommending the town incent utility companies to remove double poles placed in the middle of sidewalks to comply with the Americans with Disabilities Act (ADA).
- The committee was asked to consider how other communities fund sidewalks.
- The committee was asked to consider concrete only sidewalks (no asphalt) due to significant deterioration associated with asphalt well before its estimated useful asset life and scheduled replacement.
- The committee was asked to consider environmentally friendly features when sidewalks are constructed such as bioswales to handle stormwater runoff.
