

TOWN OF BURLINGTON
DEPARTMENT OF PUBLIC WORKS

2021 Traffic Signal Improvement Project
Winn Street at Peach Orchard Road
21C-411-0054

Questions and Answers

Q: *What class of work did MassDOT designate this project for prequalification?*

A: The project class of work is classified as “Traffic Signals”.

Q: *The List of Major Items Required on sheet 8 of 14 of the Contract Plans include a Field Monitoring Unit (FMU). The specifications included in the Contract Documents which describe the requirements of the FMU reference Connected Vehicle (CV) applications. The Contract Plans do not reference the equipment required to support CV applications. Please confirm that the intent of the Project is to implement the CV applications referenced in the Contract Documents.*

A: The item to be supplied is a FMU/RSU combo unit. The FMU/RSU shall be configured for connected vehicle applications using DSRC/C-V2X as well as cabinet monitoring, remote front panel and video streaming of detection cameras via FMU/RSU manufacturer cloud based system.

Q: *Equipment and/or material lead times will not allow for the final completion date requirement in the bid documents to be met. How will this be handled?*

A: Extensions for time for completion will be made, in accordance with law, for documented delays that are entirely beyond the control of the Contractor such as availability of materials and equipment from suppliers.
